What is REALISE?

REALISE “*Realising the potential of the international mobility of staff in higher education*” is a three-year *European Strategic Partnership* project (2016-2019) that aims to improve the implementation and recognition of staff mobility in order to maximise its impact on both *individuals* and *institutions*.

Thus, the project partnership’s general objective is to enhance staff mobility as a *strategic instrument for the internationalization* of higher education institutions.

Three SPECIFIC OBJECTIVES:

1. Identify and develop *innovative practices* regarding the implementation of the Erasmus+ programme for staff mobility
2. Foster the *recognition of mobility* in the career development of academic, administrative and technical staff in HEIs
3. Raise *institutional awareness* about the added value of staff mobility and promote its contribution to HEIs' internationalization strategies

Why REALISE?

How to assess the impact of staff mobility programmes both on individuals and institutions?

How to make it consistent with higher education institutions' international strategies?

What is *internationalisation*? A multifaceted notion...

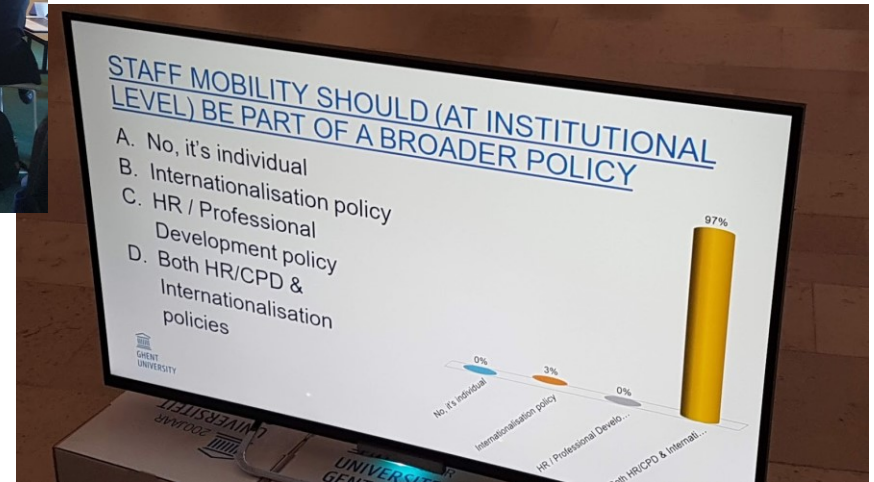

Internationalisation will NOT happen if the notion does not percolate through all levels of the institution: "*internationalisation at home*".

How (to) REALISE?
